                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  ò
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       d
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        à
Schwann cell myelin protein precursor - Japanese quail
C;Species: Coturnix coturnix japonica (Japanese quail)
C;Date: 17-U1-1992 #Sequence_revision 17-Jul-1992 #text_change 09-Jul-2004
C;Accession: JH6093; PS0356
R;Dulac, C.; Tropak, M.B.; Cameron-Curry, P.; Rossier, J.; Marshak, D.R.; Roder, J.; Le
Neuron 8, 32-334, 1992
A;Title: Molecular characterization of the schwann cell myelin protein, SMP: structural
A;Reference number: JH6093; MUID:92153423; PMID:1739462
A;Accession: JH6093
A;Molecule type: mRNA
A;Residues: 1-620 «DUJ.
